# Changes to Existing Buildings Program

## CAC Meeting
## January 17, 2007

Energy Trust of Oregon, Inc.

# Prescriptive Incentive Changes

- High Efficiency Condensing Boilers with Electronic Ignition
  - An additional $4.00/kBtu/Hour-in is available for projects completed and submitted to the program by May 31, 2007
  - Brings total incentive to $6.00/kBtu/Hour-in
- Exit Signs
  - Add back at $15 per unit for ENERGY STAR compliant exit signs
- Delamping Incentive
  - Add back delamping incentives at $5 per lamp for prescriptive and custom lighting projects
- High-Performance T-8 Fixtures
  - Raise incentive from $15 per fixture to $20 per fixture

EnergyTrust of Oregon, Inc.

# Lighting Changes – Prescriptive + Custom Projects

- Lighting Project Minimum Savings and Payback
  - The minimum savings for lighting projects will change from 30% to 25% and minimum payback will change from 3 years to 1 year, in order to be aligned with the Oregon Business Energy Tax Credit.
- Lighting Project Incentive Caps
  - The incentive cap as a proportion of project costs is raised from 20% to 25%
  - The not to exceed incentive cost per kWh is raised from $0.10 per kWh to $0.12 per kWh
  - This brings the lighting incentives in line with the non-lighting custom incentives

EnergyTrust of Oregon, Inc.

# Non-Lighting Custom Incentive Changes

- No change to custom incentives
  - Incentives up to 25% of approved project cost with not to exceed incentive costs of $0.12 per kWh and $1.00 per Therm per custom project

- High priority custom measures
  - Direct-Digital Controls and Variable-Air-Volume Conversions
    - Incentives up to 35% of project costs with a not to exceed incentive cost of $0.12 per kWh and $2.00 per Therm
  - Chillers
    - Incentives up to 35% of project costs with a not to exceed incentive cost of $0.15 per kWh
  - High priority custom measures must still pass cost-effectiveness test

EnergyTrust of Oregon, Inc.
