

# CASH IN WITH EFFICIENT BUILDING

BUILDER INCENTIVES  
FOR ENERGY STAR®  
CERTIFIED HOMES

Energy Trust of Oregon supports your efforts to build beyond code requirements and improve the energy efficiency of new homes. Washington builders can receive a **\$600 cash incentive** for newly built ENERGY STAR certified gas-heated homes in NW Natural's service territory.

## How to apply

Go to [www.energytrust.org/nhresources](http://www.energytrust.org/nhresources) to download the incentive application (Form 620WA). Complete and submit the application to Energy Trust using the contact information listed on the bottom of the application.

## Incentive requirements

- Offer is only available to Energy Trust trade allies building gas-heated homes served by NW Natural in Washington.
- Incentives are available for projects certified by December 31, 2012 and are subject to change.

*For more information on becoming a trade ally, please contact our trade ally coordinator at 1.877.283.0698, option 1, or via email at [newhomes@energytrust.org](mailto:newhomes@energytrust.org)*

Distinguish yourself in a competitive market by joining our network of trade allies. Membership is free and makes it easy for builders to:

- Include energy-efficiency or renewable energy technologies and techniques in your construction practices
- Receive free referrals through our online contractor listings

Visit [www.energytrust.org/ta](http://www.energytrust.org/ta), click on the "Become a Trade Ally" tab, and take your business to the next level today.

Energy Trust of Oregon is an independent nonprofit organization dedicated to helping utility customers benefit from saving energy and tapping renewable resources. Our services, cash incentives and energy solutions have helped participating customers of Portland General Electric, Pacific Power, NW Natural and Cascade Natural Gas save on energy costs. Our work helps keep energy costs as low as possible, creates jobs and builds a sustainable energy future. **Printed with vegetable-based inks on paper that contains 100% post-consumer waste.** 11/2011\_v.A
