

# NOTICE OF INCENTIVE RESERVATION

For Form 720X Application

*Sent Via Electronic Mail*

<b>NOTICE DATE:</b>
<b>TO: SYSTEM OWNER:</b>  TRADE ALLY:
<b>SITE ADDRESS:</b>
<b>ENERGY TRUST PROJECT ID:</b>

**Congratulations! This letter is to notify you that that your *Form 720X* incentive application for a XX kW small wind System (as described in your application) has been processed and approved for an to Energy Trust incentive reservation.**

Energy Trust's Small Wind Program has reserved an incentive amount of **\$XX,XXX** for the described System, subject to the terms and conditions of our ***Form 720X*** agreement, for a period ending **XXXXXXX XX, XXXX** (the Reservation Period).

The System must be installed and pass its Energy Trust Small Wind program inspection during the Reservation Period. Any comments made by the reviewer during the design review process must be addressed in the installation. See these comments below:

•

During the Reservation Period, if you and your Trade Ally decide to make any additional changes to the System, then you will be required to re-submit an updated, signed application to the Small Wind Program *before* making any changes to the System. The updated application must go through our review and approval process again to determine whether the revised System is still eligible for Energy Trust incentives.

Because Energy Trust has limited incentive funding, Energy Trust may require demonstration of progress towards project completion during the Reservation Period, and may check in from time to time on status. Please review the terms and conditions of our ***Form 720X*** for more information. If you decide to cancel the project at any point during the Reservation Period, please notify us immediately.

If you have any questions, please do not hesitate to contact me at 503-459-4071 or [lizzie.rubado@energytrust.org](mailto:lizzie.rubado@energytrust.org).

Sincerely,

A handwritten signature in cursive script that reads "Lizzie Rubado".

Lizzie Rubado  
Sr. Renewable Energy Project Manager
