

**Form 320S
Incentive Application—Weatherization, Self-Installed
Existing Homes**

To be completed by Participant

Conservation Services Group (CSG) is a Program Management Contractor for Energy Trust of Oregon

Program Use Only

FastTrack ID	Project Type
--------------	--------------

The Existing Homes program must receive applications within 90 days from the date of installation. All information must be completed for processing; incomplete information will result in delayed payment of the incentive. Incentive offers are subject to funding availability and may change.

A quality control post-installation work quality verification will be performed on all insulation self-install incentive projects and 10% of all electric water heater projects.

To Ensure Prompt Payment:

<input type="checkbox"/> Complete and return the entire form, including the Insulation and/or Electric Water Heater Self-Install Checklist on page 3 and/or 4	<input type="checkbox"/> Work complies with specifications at www.energytrust.org/wxspeccs
<input type="checkbox"/> Provide service utility information	<input type="checkbox"/> Submit all receipts
	<input type="checkbox"/> Sign the application

Self-Installed Projects Completed*

The Existing Homes program must receive applications and receipts within 90 days from the date of installation. **Participant may not include any labor charges for installation.** A quality control post-installation visit will be performed on all insulation self-installed projects, and on 10% of all electric water heater self-installed projects that are submitted for Energy Trust incentives. Incentives will be released after the work passes a work quality verification.

Electric and Gas Heated Homes Insulation Data (All information is required to process incentive for payment.)

	Insulation Cost	Beginning R-Value	Ending R-Value	Square Feet	Incentive	Maximum Incentive
Attic Insulation		R-	R-			\$0.25 per square foot, not to exceed cost
Knee Wall Insulation		R-	R-			\$0.30 per square foot, not to exceed cost
Floor Insulation		R-	R-			\$0.30 per square foot, not to exceed cost
Total Insulation Incentive Requested						\$

*Attic, knee wall and floor insulation may be installed by the homeowner. Vertical walls separating crawlspaces and attics from indoors must be insulated as a part of attic or floor insulation work. Knee wall insulation will not be incentivized by itself. Wall insulation and duct insulation must be installed by a licensed contractor to be eligible for Energy Trust incentives. Please see www.energytrust.org for more details.

Conservation Services Group (CSG) is a Program Management Contractor for Energy Trust of Oregon

Electric Water Heater Data (All information is required to process incentive for payment.)

	Water Heater Cost	Energy Factor (EF)	Model Number	Serial Number	Incentive
Electric Water Heater					\$35, Energy Factor of 0.93 or greater
High-Efficiency Electric Water Heater					\$75, Energy Factor of 0.94 or greater and a 20-year tank warranty or greater
Total Water Heater Incentive Requested					\$

ELECTRIC WATER HEATER SELF-INSTALL CHECKLIST FOR HOMEOWNERS

Turn off electricity to the heater. IMPORTANT Make sure that there is no electrical power at the heater with a multimeter or test light.	<input type="checkbox"/>
Disconnect wiring, drain the heater and disconnect the water piping.	<input type="checkbox"/>
Remove old heater and position new heater, making sure it is level and pipes and wires will easily reach.	<input type="checkbox"/>
Attach water piping, install temperature and pressure relief valve and any other fittings.	<input type="checkbox"/>
Close heater drain valve.	<input type="checkbox"/>
Open hot water faucet to release trapped air and open cold water inlet to tank.	<input type="checkbox"/>
Check for leaks and fill with cold water before restoring power to the tank.	<input type="checkbox"/>
Reconnect electrical wiring.	<input type="checkbox"/>
Set temperature to 140° for electric water heater tanks, 120° for gas water heater tanks.	<input type="checkbox"/>
Install earthquake or seismic strapping in accordance with the appliance manufacturer's recommendations.	<input type="checkbox"/>

Bonus offering for homeowners installing multiple qualifying improvements*

\$400 Solar Bonus Package (Solar project + two qualifying energy-efficiency upgrades)

*For more information or a list of qualifying upgrades, please visit <http://www.energytrust.org/bonuspackage>

Terms and Conditions

APPLICATION: This application must be filled out completely, truthfully and accurately. Participants are advised to retain a copy of this application and any accompanying documentation submitted to Energy Trust of Oregon, Inc. under this program. Energy Trust will not be responsible for lost documentation pertaining to this application request. **Existing Homes program must receive applications within 90 days from the date of installation.** Incentive offers are subject to funding availability and may change. **Incentive amounts are valid through April 30, 2012.** A quality control post-installation work quality verification will be performed on all insulation self-installed projects, and on 10% of all electric water heater self-installed projects that are submitted for Energy Trust incentives. Incentives will be released after the work passes work quality verification. **Please allow 6-8 weeks for incentive processing.**

ELIGIBILITY: Incentives are available to approved Participants who are: (i) Oregon residential electric service customers of Portland General Electric (PGE) or Pacific Power, and/or (ii) Oregon residential natural gas service customers of NW Natural or Cascade Natural Gas, or (iii) Washington residential natural gas service customers of NW Natural. Incentives for energy-saving measures

Measures and incentives subject to change after April 30, 2012.

**Form 320S
Incentive Application—Weatherization, Self-Installed
Existing Homes**

To be completed by Participant

Conservation Services Group (CSG) is a Program Management Contractor for Energy Trust of Oregon

that help save on the cost of home heating are available to PGE and Pacific Power customers who heat their homes with electricity and to NW Natural or Cascade Natural Gas customers who heat their homes with natural gas. Final determination of eligibility shall rest solely with Energy Trust.

WORK QUALITY VERIFICATION: Participant will verify that the installed energy-saving measures meet program requirements and Energy Trust of Oregon weatherization specification standards. Outdoor temperatures may affect this verification process. Participant's home may also be selected for a quality control post-installation visit. No warranty is implied by this work quality verification.

PAYMENT: The incentives will be promptly paid upon: (i) completion of the energy-saving measures, (ii) verification of the measures, and (iii) **submission of this completed application with all required information attached.**

PROOF OF PURCHASE: The receipts accompanying this application must itemize the materials purchased and show the date of purchase.

INCENTIVE AMOUNT: Incentives for the energy-saving measures completed as set forth in this application are limited to the amounts set forth in this application.

TAX LIABILITY: Energy Trust is not responsible for any tax liability, which may be imposed on the Participant as a result of payment of any grant funds or any other incentives. Energy Trust is not providing tax advice, and any communication by Energy Trust is not intended or written to be used, and cannot be used, for the purpose of avoiding penalties under the Internal Revenue Code.

FACSIMILE/SCANNED: Facsimile transmission of any signed original document, and the retransmission of any signed facsimile transmission, shall be the same as delivery of the original signed document. Scanned original documents transmitted to Energy Trust as an attachment via electronic mail shall be the same as delivery of the original signed document. At the request of Energy Trust, Participant / Applicant shall confirm documents with a facsimile transmitted signature or a scanned signature by providing the original document.

SAFETY AND BUILDING CODES: Participant represents that: (i) all products installed and work performed complies with all federal, state and local safety, building and environmental codes, and (ii) products are UL listed, if applicable, and installed per manufacturer's instructions.

NO ENDORSEMENT: Energy Trust does not endorse any particular manufacturer, contractor or product in promoting Existing Homes program. The fact that the names of particular manufacturers, contractors, products or systems may appear on this application does not constitute an endorsement. Manufacturers, contractors, products or systems not mentioned are not implied to be unsuitable or defective in any way.

PROPERTY RIGHTS: Participant represents that Participant has the right to perform the energy-saving measures on the property on which those measures are performed and that any necessary landlord's consent has been obtained.

ACCESS AND EVALUATION: Energy Trust and/or its representatives may request access to the property and may review and evaluate the project during and after completion. Participant agrees to provide reasonable access to the property for the purposes described herein.

ENERGY INFORMATION RELEASE: Participant authorizes Energy Trust to access energy usage data for the project's specified electric and natural gas accounts at the physical address of the project. Participant agrees to provide other reasonable assistance to Energy Trust to obtain such information.

INFORMATION RELEASE: Participant agrees that Energy Trust may include Participant's name, Energy Trust services and resulting energy savings in reports or other documentation submitted to the Energy Trust Board of Directors, the Oregon Public Utility Commission, Oregon Department of Energy, Oregon Housing & Community Services, and/or the Oregon Legislature. Energy Trust will treat all other information gathered in evaluations as confidential and report it only in the aggregate.

ELIGIBLE PRODUCTS: Products must meet Energy Trust energy-efficiency specifications. These specifications may be found on the web at energytrust.org. If you, or your contractor, are not sure of the specifications, please call Energy Trust before proceeding.

DISCLAIMER / NO LIABILITY: Participant understands that, while Energy Trust is providing Participant with an incentive payment, Energy Trust is not supervising work performed for Participant nor is Energy Trust responsible in any way for proper completion of that work or proper performance of any products purchased. Energy Trust is simply providing funding to assist Participant in implementing energy-saving measures. Participant assumes the risk of any loss or damage(s) that Participant may suffer in connection with installation of the measures. Energy Trust does not guarantee any particular energy savings results by its approval of the application or by any other of its actions.

Signature

By signing below, Participant agrees that he/she has read, understands and agrees to the terms and conditions set forth on pages 4 and 5 of this application. Participant also represents to Energy Trust that the energy-saving measures have been completed and that Participant is eligible to receive the requested incentives.
