Efficient Greenhouse Natural Gas Heating
Production Efficiency Program | Incentive Application | Form 420NG

---

**Want your incentive faster? Apply online using DocuSign. Visit [www.energytrust.org/Forms/NaturalGas](http://www.energytrust.org/Forms/NaturalGas)**

Incentives listed on this form are effective as of April 18th, 2022. See Section 4, Additional Terms and Conditions for details.

**Steps to Completion**

1. **Complete** the application and sign page 2. Please note that all fields are required to process the application.
2. **Attach** copies of invoices or receipts. Please note that itemized invoices are required to determine eligible costs.
3. **Attach** evidence of equipment eligibility such as a cut sheet showing make and model number, capacity, and other characteristics in the qualifying criteria below (if not already included on invoice).
4. **Fax, email, or send** application to:
   - Energy Trust of Oregon - Streamlined Industrial
   - 123 NE 3rd Ave, Suite 400
   - Portland, OR 97232
   - 1.503.928.3154 phone
   - 1.503.282.0177 fax
   - streamlinedindustrial@energytrust.org

   Application must be submitted in the same calendar year and within 180 days of equipment purchase and install.

---

Form 420NG v2022.3 220418 - Page 1 of 3
Qualifying Criteria are listed below. To confirm equipment eligibility, review and check off criteria below. To qualify for incentives, equipment must meet Energy Trust’s requirements. See Terms and Conditions for additional information and contact us if you have questions.

Equipment must be installed at a gas heated facility in Oregon served by NW Natural, Cascade Natural Gas, or Avista.

### Infrared (IR) Polyethylene Greenhouse Cover
- must be upgrading from a non-IR polyethylene greenhouse cover
- must have a minimum life expectancy of four (4) years
- must be infrared polyethylene plastic with an anti-condensate coating
- must have a minimum thickness of 6 mil

**$0.10 per square foot of material purchased**

### Condensing Unit Heater
- must be installed in a greenhouse with transparent or translucent sides and roof – warehouse or other indoor grow installations are not eligible for this incentive.
- must heat to 55 °F or greater for at least two months per year
- minimum greenhouse size 1,000 square feet

**$7.50 per kBtu/hr input**

### Thermal Curtain
- must be installed above the heated space and drawn closed automatically at night
- must be designed primarily to be a heat curtain
- must have an energy savings rate of 40% or higher
- must have a minimum life expectancy of five (5) years
- rebate is for square feet of greenhouse or square feet of curtain material

**$0.45 per square foot**

### Under-Bench Heating
- heating system must use hydronic heat distribution located directly on or under plant bench, on the floor, or in the floor
- must replace unit heaters as the primary heat source
- remaining unit heaters must be controlled to turn on only as an emergency backup system

**$1.55 per square foot of heated floorspace**

### Intelligent Greenhouse Controller with Night Setback
- must have a setback feature
- heating and ventilation equipment must be controlled by a single control temperature
- must allow for a dead-band zone of 5 °F or greater between heating and ventilation events
- must heat to at least 50 °F for 30 or more days per year
- must have the ability to temporarily override set program temperatures
- must control all heating and ventilation equipment in each greenhouse
- maximum greenhouse size of 15,000 square feet per controller

**$0.20 per square foot of heated greenhouse**

Estimated Incentive:
- (cannot exceed application submittal limit or per-site maximum)

Read and sign page 3.
SECTION 4: TERMS AND CONDITIONS

1. Application Deadlines: Participant should retain a copy of this application and any accompanying documentation submitted. Complete applications must be submitted in the same calendar year, and within 180 days of equipment purchase and install. Neither Energy Trust nor its representatives will be responsible for any lost documentation pertaining to this application.

2. Eligibility: Incentives are available for qualifying natural gas energy saving equipment to eligible NW Natural and Cascade Natural Gas, and Avista natural gas customers in Oregon on rate schedules paying the public purpose charge. Subject to the additional requirements set forth in Section 16 below, Natural Gas Industrial Sales Service Customers or Service on Rate Schedule 3, 31 or 32 or Commercial Sales Service Customers taking service under Rate Schedule 32 are also eligible. Transportation service and Combination service customer accounts are not eligible for incentives. Additional eligibility restrictions, including but not limited to per-site limits, may apply and final determination of eligibility rests solely with Energy Trust.

3. Incentives: Limited to one incentive per one equipment purchase. Funds for incentives are limited and available on a first-come, first-served basis. Program requirements, including incentive levels and per-site limits, are subject to change without notice and may vary by utility territory depending on the pace of demand in each territory and the available incentive budget. The total incentive provided (i) will depend upon the incentive amounts available and in effect as of the equipment purchase date, and (ii) will never exceed the total, eligible project cost or a maximum of $250,000. If any bonus amounts are available for qualifying equipment, the base incentive plus the bonus incentives will never exceed the total documented eligible project cost or any per-site maximums. Determination of site eligibility for application and incentive purposes shall rest solely with Energy Trust.

4. Payment: Incentives will be paid upon: (i) submission of this completed application along with all required accompanying proof of purchase documentation by the deadline indicated, and (ii) satisfactory completion of a Program verification, if required. Please allow 60 to 90 days from Energy Trust’s receipt of all information for delivery of payment. A complete, accurate, and verifiable W9 is required. Failure to deliver all required documentation may result in delay or withholding of payment.

5. Proof of Purchase: Participant must submit all sales receipts, invoices, manufacturer specification sheets, and other pertinent documents itemizing the equipment purchased. The proof of purchase documentation submitted must show: (i) the date of purchase and itemized price paid, and (ii) size, type, make, and model or part number of equipment purchased. Participant will provide Energy Trust with additional proof of purchase information upon request.

6. Verification: Equipment installations may be selected for an on-site verification review. Should a Participant’s facility be chosen for verification, satisfactory completion of that verification must occur before payment will be issued. Energy Trust’s verification is for the purpose of incentive payment only. No warranty is implied.

7. No Endorsement: Energy Trust and its representatives do not endorse any particular manufacture, contractor, product or system in promoting the Program. The fact that the names of particular manufacturers, contractors, products, or systems may appear on this application does not constitute an endorsement. Manufacturers, contractors, products or systems not mentioned are not implied to be unsuitable or defective in any way.

8. Disclaimer: ENERGY TRUST AND ITS REPRESENTATIVES MAKE NO GUARANTEE OR WARRANTY WHATSOEVER, WHETHER EXPRESS OR IMPLIED, WITH RESPECT TO THE EQUIPMENT. Participant assumes the risk of any loss or damage(s) that Participant may suffer in connection with the equipment. Energy Trust does not guarantee any particular energy savings results by its approval of this application, or by any other of its actions.

9. Energy Information Release: Participant hereby confirms that it has reasonably attempted to identify all of its utility accounts for its identified site(s) in this incentive application. By signing this application, Participant authorizes Energy Trust to obtain information from the utility accounts related to the project site(s)/measure(s) that may be associated with such site(s) that Participant is not able to reasonably identify at this time. Participant agrees to provide other reasonable assistance to Energy Trust to obtain such information. Participant further authorizes Energy Trust to discuss its energy efficiency efforts with its utility account representative(s).

10. Equipment Installation: Participant represents that (i) it has the right to install the equipment on the property on which the equipment is installed and that any necessary consents have been obtained, and (ii) that all equipment installed and work performed shall comply with all laws, regulations and safety, building, environmental and permitting codes, and any manufacturer instructions.

SECTION 5: AGREEMENT

By my signature below, I agree that all information supplied to Energy Trust on this application is true and correct to the best of my knowledge, the purchased equipment has been installed at Participant’s site address listed and I am authorized to submit this incentive application on behalf of the named Participant identified in Section 1 and agree to the terms and conditions of this incentive application.

SECTION 6: SUBSTITUTE FORM W9 CERTIFICATION

Signature and Certification: Under penalties of perjury, I hereby certify that (1) The payee’s taxpayer identification is true and correct, (2) the payee is not subject to backup withholding, and (3) payee is a U.S. person (including a U.S. resident alien).

The Internal Revenue Service does not require your consent to any provision of this document other than the certifications required to avoid backup withholding.
