

Agenda

Conservation Advisory Council

Wednesday August 10, 2011 1:30 p.m. – 4:30 p.m.

Energy Trust conference rooms

851 SW Sixth Ave., #1200

Portland, OR 97204

1:30 Welcome and introductions

1:40 Measure Life in Industrial Settings *(Review)*
Recent analysis of the life of efficiency measures in industrial facilities indicate that they last longer than Energy Trust has been assuming. Staff will review the analysis and present the new assumption for measure life for industrial programs.

2:00 Lighting Market Transformation Savings *(Review)*
A recent evaluation points to significant savings that can be claimed by Energy Trust from efforts we have supported to drive lighting savings in the business sector. Staff will review the study and quantify the savings we may claim.

2:30 Break

2:45 Impact of changes to Oregon tax credits *(Discussion)*
The Oregon Legislature made changes to the State's tax credits for business and residential energy efficiency measures. The residential changes start January 1, 2012. The business changes are immediate. Staff will present an analysis of the impacts of the changes in 2011 on programs supported by Energy Trust. Staff will propose some mitigation for the changes for this year and will solicit feedback on these.

4:15 Additional Public Comment

4:30 Adjourn

The next scheduled meeting of the Conservation Advisory Council will be on September 14, 2011.
