

MULTIFAMILY AIR SOURCE HEAT PUMP INCENTIVES MAKE PRODUCTS MORE AFFORDABLE

To help customers switch to an energy-efficient heat pump, Energy Trust of Oregon offers a variety of incentives on air source heat pumps. Energy Trust of Oregon's cash incentives decrease equipment costs and make it easier for customer to select an energy-efficient heat pump system.

AVAILABLE MULTIFAMILY AIR SOURCE HEAT PUMP INCENTIVES INCLUDE:

HEAT PUMP TYPE	INCENTIVE
Side-by-Side or duplex, triplex, fourplex properties only	
Ducted Heat Pump	\$1000 per unit
Extended Capacity Heat Pump (New or Replacement)	\$1000 - \$3000 per unit
Central Air Conditioner	\$100 - \$250 per unit
Stacked structures with five of more dwelling units only	
Air-Cooled Variable Refrigerant Flow (VRF) Multi-Split Ductless Heat Pump	\$1 per sq ft of area served by VRF
For all property types	
Ductless Heat Pump	\$1,800 per outdoor unit
Packaged Terminal Heat Pump	\$800 per unit

WHO IS ELIGIBLE?

Cash incentives are available for qualifying equipment upgrades in multifamily buildings. To qualify, a property must be:

- » An existing multifamily structure in Oregon
- » Receiving utility services from Portland General Electric or Pacific Power
